Dear Parent/Carer

Students at Mount Carmel College currently utilise iPads within the classroom and for various external curriculum tasks. This technology has also allowed us to integrate online resources into everyday learning. The iPads are a significant investment for families and we are writing to provide information to allow families to plan ahead for the process of purchasing the iPads.

If your daughter currently has an iPad 2 or a previous version, an upgrade will be required. Whilst we will support iPad 2s in the classroom throughout 2015, we request that all iPads are upgraded by the start of the 2016 school year.

The College recommends parents to purchase either an iPad Retina (regularly on special for $400) or an iPad Air. Please note the iPad mini is NOT suitable for student purposes.

If an outright purchase of the iPad creates financial hardship to any families, there is an opportunity to purchase one from the College, with payment over a 2-year plan. Please contact our Business Manager, Mrs Kerrie Loveluck on 6216 7900, if you wish to discuss this option further.

Regards

Simon James  Giovanna Padas
IT Coordinator  Acting Director of Teaching and Learning
