Winter Uniform Sizing Guide:

Please note all measurements are taken from garments hanging squarely on their clothes hangers, to best mimic how they would sit on your child.

Shirt width is across chest, directly underneath armpit. Length is taken from the middle of one shoulder, down to bottom hem.

Sleeve length is from end of cuff to shoulder seam for shirts, and from end of cuff to inner edge of collar for jumpers/cardigans.

Hip width is taken across waistband, and length is from top edge of waistband to either bottom edge of one leg (trousers), or bottom edge of skirt hem (tunic/skirts).

Please take note of the grade requirements for your child – they will not need all of the items in this guide.

The girls trousers are an *optional* year-round alternative to the skirt/tunic.
